## About Me

Creative and solution-focused Web Developer with a track record of building dynamic and user-friendly web applications. Proficient in React and Next.js, with a keen eye for detail in responsive design. Enthusiastic about staying at the forefront of web3 technologies and committed to continuous learning. Excited to contribute technical expertise and collaborative skills to innovative projects.

## Projects

### Citronics Website *December 24, 2023*

Key responsibilities:

- Solely crafted the college fest website using HTML, CSS, and JS
- Secured a spot in a website-making competition
- Transformed the project into the official Citronics website
- Effectively communicated and led the project from conception to execution

### Nexus Events *December 10, 2023*

Key responsibilities:

- Implemented PolygonID for attendee verification
- Utilized The Graph on Scroll for efficient blockchain data extraction
- Overcame challenges in PolygonID integration
- Developed and deployed smart contracts
- Innovated to enhance event attendance accuracy and user experience

### Nexus Read *October 27, 2023*

Key responsibilities:

- Developed a manga hosting app, Nexus Read, solo
- Incorporated AI for NSFW/SFW filtering and tagging
- Implemented Discord Auth for user-friendly login

## Achievements

- Oct 29, 2023 Won Syntax Error X hackathon conducted by IIT Roorkee
- Jan 17, 2023 Won Hackistica'23 conducted by IIT Indore
